# 001Touch Plus™ Smart Deadlatch

For over 40 years Lockwood's iconic 001 Double cylinder Deadlatch has been securing homes in Australia. Now you can upgrade your mechanical 001 Deadlatch to a smart solution.

## Connected by Yale Home App\*

The 001 Touch Plus Smart Deadlatch, connected by Yale Home\*, opens up your home to a range of smart lock features. You can control your lock using a PIN code, a Key Tag, or simply from your mobile devices. Using varying technologies including Bluetooth and GPS as well as the Yale Home App, the auto unlock function unlocks your door as you approach. With 24/7 lock activity, you can see who and when people accessed your lock, when your mobile is connected to the lock via Bluetooth. The DoorSense™ position sensor checks the status of your door and tells you if your door is open or closed.

## Ideal External Door Lock

The Lockwood 001Touch Plus™ operates with a Deadlatch and is suitable for use as a standalone lock or with an additional latch and lever/knob.

## Remote Access and Works with

The 001Touch Plus Smart Deadlatch can be upgraded with the Yale Connect Plus Hub (sold separately) to access your lock remotely, as well as voice assistant capability - easily integrate it into your Google, Samsung or Alexa enabled smart home devices.

## Retrofitable

Compatible with most 60mm backset deadlatches\*\*

## Product Details

<b>001Touch Plus</b>	<b>Chrome Plate:</b> LWL-001TDDL-CPDP <b>Matt Black:</b> LWL-001TDDL-MBKDP
<b>Backset</b>	60mm
<b>Battery Cover</b>	High quality ABS plastic
<b>Door Thickness</b>	32mm to 60mm
<b>Finishes</b>	MatteBlack (MBK) and Chrome Plate (CP)

**Matt Black exclusive to Bunnings Only**

\*For more information on Yale Home App, visit [yalehome.com.au](http://yalehome.com.au)

\*\*The 001Touch Plus Smart Deadlatch is designed to replace or upgrade other Lockwood locks, such as the Lockwood 001, 002 deadlatch, and 100, 201, 211, and 213 Nightlatch and stream latches

# 001Touch Plus™ Smart Deadlatch

## Secure Mode

Secure mode gives the option to lock the 001Touch™ internally with a key. This secures the door on both sides with the ability to unlock the door with Yale Home App, a PIN code or Keytag externally.

## User Code that Expires\*

A temporary code can be programmed to last from three hours to two weeks. This is ideal when a tradesman needs access for a few hours or when a neighbour is house sitting.

## Visual Guide for Programming

For added convenience, an illuminated guide will assist in the programming of key features.

## Low Battery Alarm

The Low Battery indicator on the front of the lock illuminates when battery level is low. You will also receive the low battery warning from Yale Home App and email once you connected to Yale Home App.

## Smart Memory

The settings, codes and key cards will remain programmed in the lock in the event the batteries are depleted.

## Emergency Battery Connection

9V battery backup terminal is at the front of the lock to gain access, if the batteries are flat.

\*Check the next page for details on the feature differences with and without connecting to the Yale Home App

# 001Touch Plus™ Smart Deadlatch

## Product Features with/without connecting with Yale Home App

	Lockwood 001Touch Plus	Lockwood 001Touch Plus + Home Module	Description
<b>4 - 10 digit PIN code</b>		Yes (20 codes max.)	
<b>Temporarily PIN code for visitor</b>		Yes (1 code max.)	
<b>Key Tag (includes two tags)</b>		Yes	
<b>Touchscreen with backlit Keypad</b>	Yes	Yes	
<b>Battery operated</b>	Yes	Yes	
<b>Low battery indicator with emergency battery connection</b>	Yes	Yes	Low battery warning will be received from the Yale Home App
<b>User codes and settings remain if batteries are replaced</b>	Yes	Yes	
<b>Local Access (lock and unlock) via Bluetooth*</b>	No	Yes	
<b>Auto-unlock/Auto-lock*</b>	No	Yes	
<b>DoorSense™ (Door position sensor)*</b>	No	Yes	
<b>Audit Trails*</b>	No	Yes	
<b>3 minute lock out if code is entered incorrectly 5 times</b>	Yes	Yes	
<b>Tamper alarm</b>	Yes	Yes	
<b>Change PIN re-lock time</b>	Yes	Yes	If the Yale Home App is used as a credential to unlock the door, then the re-lock time will always be 7 seconds.
<b>Auto Re-lock On/Off</b>	Yes	Yes	

### NOTE:

To enable mobile app functionality we highly recommend to connect your lock with yale home app immediately after setting up the master code.

For security reason when the lock get registered with Yale Home App, the lock enables 'Home App mode' and preventing the user to register the credentials from keypad (such as: add/remove user code / key tag except the master code).

All existing credentials (user code / key tag) will be erased as initialisation except the master code.

It is HIGHLY RECOMMENDED to register the credentials through Yale Home App only.

\*Functions are local access only, the Yale Connect Plus Hub 2 is sold separately to achieve remote control and access.

# Lockwood SDL™ Leverset

Exclusive to Bunnings

## Exclusive to Bunnings Only

The Lockwood SDL™ Smart Leverset is an excellent option for both new builds and upgrading your current door lock. This digital lever lock features an illuminated keypad that makes locking and unlocking your door simple without needing keys. You won't have to hide keys anymore since you can create unique entry codes for trusted individuals and delete them anytime you need to. Perfect for doors that are 35-45mm thick and require a single hole preparation, including side entry doors, garage entries, basement doors, and home offices.

The Lockwood SDL™ Smart Leverset comes with a Yale Home BLE module, unlocking a range of smart features through the Yale Home platform. It also seamlessly integrates with Apple's HomeKit ecosystem, providing smart home convenience from the moment you install it.

## Key Features

- Simple installation
- Automatic Re-locking
- Create up to 250 unique PIN codes
- Mechanical Key Override
- Suitable for standard 54mm timber bore hole
- Adjustable 60-70mm backset

## Works with your Smart Home

The Lockwood SDL™ Smart Leverset can be upgraded with a Yale Module (Z-wave Plus and Zigbee\*\*) to integrate into most home automation systems so that you can control and monitor the lock from anywhere in the world.

## Retrofittable

Fits majority of doors with 54mm hole

\*Lever is sold separately

\*\*Modules are sold separately

# 002 Digital DX Deadlatch

The Lockwood Digital DX Locksets provide a mechanical method of keyless entry and are designed to control access into commercial areas, especially when frequent combination changes are needed to maintain security.

For extra security when under forced attack, the inbuilt clutching mechanism allows the outside knob to rotate without operating or damaging the lock.

The factory set 5 digit code is easily changed to any 4, 5 or 6 digit code using the code changing kit provided with each lock.

As the digital lockset utilizes mechanical operation, electrical wiring is not required.

002 Digital DX Locks suit right or left hand opening in doors. Versions for outward opening doors or doors with metal frames sold separately.

## Key Features

### Outside Function

Press the C button, enter the correct code, then turn the knob to unlock the door. Upon releasing the turn knob the code is automatically cancelled.

### Inside Function

Opened by knob/lever at all times.

### Hold-Back Function

Bolt hold-back function activated by rotating inside knob/lever clockwise, past 90 degrees.

## Product Details

<b>Backset</b>	60mm
<b>Door Thickness</b>	32mm to 45mm
<b>Finish</b>	Satin Chrome Brushed* (SC)
<b>Internal Case Assembly</b>	High purity zinc alloy, 92mm wide, 72mm high, 54mm projection
<b>Latch</b>	18mm projection, stainless steel

\* Finish denotes the finish on the digital code pad, the 002 lock body is supplied in satin chrome pearl.

<b>Finish</b>	Codepad: Satin Chrome Brushed ( <b>SC</b> ) Mortice Lock: Stainless Steel ( <b>SS</b> )
<b>Codepad Assembly</b>	High purity zinc alloy, 45mm wide, 164mm high, 52mm projection
<b>Latch</b>	Stainless steel with 15mm projection

Note: As suitability of lever will be influenced by the lock backset, refer to chart for Lever/Backset compatibility Lockwood Door Handle Catalogue. Lockwood 4800 and 5800 Series (ordered separately).

### Backset

Open-out door: 23, 25.4, 30 and 38mm.  
Open-in door: 38mm recommended.  
Installation of 23, 25.4 or 30mm on open-in doors would require the door stop to be machined to clear the digital pad.

### Inside Function

Opened by lever handle at all times.

### Holdback Function

Holdback function is available, this requires the inclusion of an internal cylinder.

**Note:** Order by specifying 3782SS primary lock and 3782-DXKITSC.

# Selector® 3782 Short Backset DX Digital Mortice Locks

## DX Digital Mortice Lock

**Part Number** 3782DX-

DX Digital outside, plate furniture inside.

**Outside:** Opened by DX Digital with code.

**Inside:** Opened by handle at all times.

This function requires the locking bar to be positioned in the locked position once lock is set.

## DX Digital Mortice Lock with Holdback by Cylinder#

**Part Number** 3782DXV

DX Digital outside, plate furniture and cylinder inside.

**Outside:** Opened by DX Digital with code.

**Inside:** Opened by handle at all times. Holdback activated by key. Key retracts latch after releasing holdback.

### Notes:

All drawings shown are in right hand configuration. Part numbers shown above are for 23mm backset lock, if 25.4mm is required substitute 3 for 4 i.e. 4782, or if 30mm or 38mm lock is required, substitute 3 for 5 or 6 respectively i.e. 5782, 6782

#Latch bolt can be held within the lock. Lock function recommended for use in holdback application.

### Warning:

The MkI Latching Adaptor (now part number 3770M1-ADAPTOR) can only be used with the MkI Selector Mortice Locks and the MkII Latching Adaptor (3770M2-ADAPTOR) can only be used with MkII Selector Mortice Locks.

For the 3780 Series short backset mortice locks, the MkI Latching Adaptor 3770M1-ADAPTOR must be used where a latching adaptor is required.

# Selector® 3782 Short Backset Key Override DX Digital Mortice Locks

## Description

Lockwood DX Digital Locksets provide a mechanical method of keyless entry.

For extra security when under forced attack, the inbuilt clutching mechanism allows the outside turnknob to rotate without operating or damaging the lock.

The factory set 4 digit code is easily changed to any 4, 5 or 6 digit code using the code changing kit provided with each lock.

Lockwood Digital DX Locksets are designed to control access into commercial areas.

As the digital lockset utilizes mechanical operation, electrical wiring is not required.

## Product Details

<b>Door Thickness</b>	43 to 46mm for metal doors
<b>Finish</b>	Codepad: Satin Chrome Brushed (SC) Mortice Lock: Stainless Steel (SS)
<b>Codepad Assembly</b>	High purity zinc alloy, 45mm wide, 164mm high, 52mm projection
<b>Latch</b>	Stainless steel with 15mm projection

Note: As suitability of lever will be influenced by the lock backset, refer to chart for Lever/Backset compatibility Lockwood Door Handle Catalogue. Lockwood 4800 and 5800 Series (ordered separately).
