The off-centered design, an innovation solutions to an old problem

We hear you. We are back with a world-first solution to an old problem. With our patented (or patent-pending) off-centered design and an advanced lock case with 60 or 70mm backset, we took care of your worries about having the risk of finger pinching, especially to your loved ones. Not only that, but we have also improved the design to make the queen and princesses in the house happy with less worry about their nicely done manicure. Stylish, elegant and yet practical, and flexible

The fully automated locking and unlocking

We love our families. Family always comes first in our mind, so do our innovations. With Yale, your family is always in our minds when it comes to securing your home entrance. Our cutting-edge fully-auto lock case enables smooth and fast locking and unlocking experience, fully automated with low noise. Now, even your kids can open and close the door safely and effortlessly, thanks to the fully-auto operation.

The all in ONE is what you need

Yale Luna Pro+ allows you to open door in various ways, you can enjoy the access option either via face recognition, fingerprint scan, personalized PIN code, RFID card or simply via Yale Home app.

The Yale Luna Pro + come with the Yale Home module, allowing your lock to work with the Yale Home app and Apple HomeKit straight out of the box. This enables you to enjoy unrivaled Yale Home features such as Auto-lock and Door Position Sensor immediately. It adds extra convenience without compromising security. Yale understands what matters most to you and protects what matters most to you.
