Commercial Key in Knob Lockset – YK16/YK17

The Yale Commercial Series Locksets incorporate a cylindrical chassis design housing a PD cylinder. The Yale Commercial Series offers a wide range of functions to accommodate a broad range of applications.

For added security it is recommended that Yale Commercial Series Knob and Lever Locksets are used in conjunction with Yale Commercial Deadbolts.

Fire Rated
Yale Commercial Series cylindrical locksets have been successfully tested up to 2 hours on fire door assemblies in accordance with Australian Standard AS-1905 Part 1, Fire Resistant Doorsets.

Backset
Standard 60mm backset for key in knob.

Latch
Stainless steel latch bolt.

Cylinder
Standard "PD" type cylinder keyed to C4 profile with two keys.

Door Thickness
Knob suits door thickness 32 – 46mm.

Finishes
Satin Stainless Steel (SS)

Standard Keying
Supplied individually keyed with two keys per lock 78,000 key combinations
Key blanks:
- V06 5PIN C4 (Standard)

Restricted Special Keying
Yale Semi-Commercial locks can be keyed to a number of controlled and/or specially keyed systems. These range from legally protected keys to protect against unauthorised duplication, which can also include specially designed key systems such as master key systems, which allow for different levels of mechanical access control.

Please contact your local sales office or customer service for specific information on keying systems.

Handing
Handing is field changeable.
