# Yale Smart Safe

Introducing the Yale Smart Safe, a revolutionary solution that combines top-notch security with ultimate convenience at your fingertips. With advanced features that surpass the capabilities of a traditional safe, this smart safe offers remote monitoring and control directly from your mobile device. With its discreet color and sleek design, the Yale Smart Safe seamlessly blends into your home. It features a convenient keypad on the front for phone-free entry and a keyway for mechanical key override in case of flat batteries. For added security, bolt it down in your preferred position using the four holes at the back and bottom. Stay informed and in control with real-time alerts. Receive notifications whenever the safe is unlocked, so you always know who has had access and when. The internal light ensures easy visibility in the dark, and the safe includes key hooks and a removable shelf for customized storage. The safe features a lock-down mechanism that activates for five minutes after five incorrect attempts. Its laser-cut door prevents unauthorized tools from being used, and the locking mechanism includes two anti-saw locking bolts for added security. And that's not all. Pair the Yale Smart Safe with the Yale Connect Plus Wi-Fi Bridge\* to control your safe remotely, and it seamlessly integrates with voice assistants like Hey Google and Alexa, making your life even easier. Experience the peace of mind that comes with the Yale Smart Safe – secure, convenient, and designed for your modern lifestyle.

## Features

- The Yale Home APP allows you to lock and unlock your safe, grant access to others and keep track of access.

# Yale Fire Safes

Like every Yale quality assured product, the new range of Yale Fire Safes has been designed with your peace of mind in focus. The entire range has been built and thoroughly tested to withstand intense heat and humidity, leaving your most precious documents in good hands. The Yale Data Fire Safe contains an additional "safe within a safe" insulation layer. This protects passports, paper documents and extra sensitive digital data, whether they are on an external hard-drive, CD ROMs, DVDs or tapes from fire.

All Yale Fire Safes are equipped with a unique digital security keypad unlike any other on the market today. A scramble number input enables personal codes to be hidden within longer sequences of numbers, whilst additional access codes can be set for one time use, ensuring privacy no matter who is in the room when accessing your safe. These state-of-the-art fire safes have been carefully designed to be worthy of your confidence and the Yale brand name.

## State-of-the-art digital touchpad

- Unique touchpad technology
- 1 billion+ digital user code
- Code scramble input function for privacy
- One time access codes
- Silent input option
- 1-48 hours total lockdown mode
- Time lock when wrong code is entered

## Easy to operate

- Re-settable 4-12 digital user code
- Low battery alarm signal
- Emergency battery capability

## Protection

- Tested to withstand up to one hour of intense fire
- 16mm steel locking bolts
- Hinges protected with 18mm steel dog-bolts
