Smart Locks

Delivering a premium digital locking solution
with flexible control and peace of mind.

Imagine the possibilities

Throughout the world, at Yale we continually introduce smart Home security solutions to protect the people and things you love. With 180 years of security expertise, we are committed to innovation and are constantly expanding our product offerings.

Bringing together the latest software advances with trusted hardware is key to Yale's success, while protecting data security and privacy for our customers is paramount.

Yale Access is a Yale mobile app that enables you to access and manage your Yale smart products. The Yale Access App allows you to lock and unlock the door, share access with your trusted family or friends, view access history, receive notifications on the lock's activity, and check the lock's battery life. The App works alongside the Yale Connect Wi-Fi bridge to give you the ability to see your lock's status and remotely operate your lock from wherever you are in the world.

At Yale, we have smart security products that fit into your lifestyle making it noticeably easier without you noticing them. Yale Access offers you trust, convenience and connectivity through a touch of a button on your smartphone.

Grant entry from wherever you are with the Yale Access App

Remote access means you can let in family, friends and trusted visitors like the cleaner or dog walker– from anywhere – when an Yale Smart Lock is paired with Yale Connect Bridge. If someone forgets to lock when they leave, you can take care of it with the tap of a finger.

Auto-lock and unlock as you come and go

The auto-lock feature can automatically lock your door when you leave, either immediately after closing or after a set amount of time via the Yale Access App. When you return, your door will auto-unlock using geofencing technology, so you don't need to fumble around with keys.

Know the ins and outs of your Home

The 24/7 activity feed will help you check who is coming and when – even when you're not there. You'll know when guests have arrived, what time your children got Home, and whether a tradesmen or cleaner was in to get the job done.

Expecting guests? Send a virtual key

You can send virtual keys to friends, family or people you trust from the Yale Access App. Guests can come and go as they wish – and you don't need to worry about lost keys.

Use your voice to control your lock

Yale Access works with Amazon Alexa, Apple HomeKit and Google Home. You can control your lock with your voice using Alexa or Google Assistant.

Unity Security Screen Door Lock

Yale home brings to you innovation in design and capability- the Yale Unity Security Screen Door Lock.

We've considered how to make life easier for you to enter your home without any hassles of searching for your keys. Control your security screen door with the Yale Access App, contactless key tag or Yale Smart Keypad*.

The Unity Security Screen Door Lock provides seamless entry into your home.

With Yale Access you can:

- Lock and unlock your door via your smart device
- Grant access to others for one time access, access for a set period of time or a date range
- Keep track of visitor access

Think of the times when you walk up to your front door and have to search you bag or pockets for your house keys, now imagine walking up to you front door and your lock unlocks the door as you approach.

Using varying technologies including Bluetooth, Wi-Fi and GPS as well as the Yale Access App, the auto-unlock feature unlocks your door as you approach.

At Yale, we pride ourselves in protecting the things that matter most to you. The Unity Security Screen Door Lock has patented digital dead locking technology, locking both the internal and external handles of your lock when using your smart device or contactless key tag. Meeting Australian lock standards AS4145.2:2008, SL6 and D7, you can be sure that the Unity Security Screen Door Lock is reliable and secure.

Wanting a premium security solution? An optional 3 point lock kit is available with your Unity Security Screen Door Lock to give you 3 locking points. Activating the auxiliary locks is as simple as lifting the lever to throw the locks.

Lock alert indications shows users the lock mode via a built in LED. The locks has three modes, Unlock (Green), Locked (Yellow) and Secure (Red). You can also press the internal electronic button to lock and unlock from the inside if you choose.

The built in door position sensor checks the status of the door and tells you if your door is securely closed and locked. This avoids inadvertently locking your door whilst the door is open.

The Unity Security Screen Door Lock is Apple HomeKit compatible. Connecting your lock with a Yale Connect Bridge*, allows 'Works with' Hey Google, Samsung SmartThings or Amazon Alexa.

*Yale Connect Bridge and Smart Keypad sold separately.

Unity Entrance Lock

Designed to suit the Australian market, the Unity Entrance Lock achieves patented digital deadlocking technology, locking both the internal and external handles of your lock.

Meeting Australian lock standards AS4145.2:2008, SL8 and D8, you can be sure that the Unity Entrance Lock meets your security needs.

Lock alert indications shows users the lock mode via a built in LED. The locks has three modes, Unlock (Green), Locked (Yellow) and Secure (Red).

Controllable by either the Yale Access App, key card or Yale Smart Keypad*, the Unity Entrance Lock provides you with a range of options to control your lock. The Yale Access App allows you to lock and unlock your door, grant access to others and keep track of visitor access, all via your smartphone. Grant users one time access, access for a set period of time or a date range, avoiding any lost keys or having your keys stolen or copied.

Using varying technologies including Bluetooth, Wi-Fi and GPS as well as the Yale Access App, the auto-unlock feature unlocks your door as you approach.

The **Yale Unity Nexion Retrofit Kit*** has been designed to offer the customers the option to upgrade the present Lockwood Nexion Mechanical and Nexion Keyless Entrance Locksets to a Yale Unity Entrance Lock, including latch and 3 sizes of strike plates to cover 35-45mm thick jambs. With their metallic finish, the latch and strike plates ensure the clean and quality finish when the Nexion is replaced with the new Yale Unity Entrance Lock. The latch and strike plates are designed to accommodate Yale Unity's door position sensor.

The door position sensor checks the status of the door and tells you if your door is open or closed. Giving you the peace of mind your door is secure when locking up.

The Unity Entrance Lock can be upgraded with the **Yale Connect Bridge***. Allowing you to access your lock from wherever you are. Remote features include the ability to lock, unlock, manage user access and update lock settings. The Yale Connect Bridge enables 'Works with' ability, integrating with your Google, Samsung or Alexa smart home hubs. The Unity Entrance Lock is also Apple HomeKit compatible (see Lock Compatibility Table on p. 19 for details).

With the **Yale Smart Keypad*** you can lock and unlock your door via PIN codes.

The durable metal made **Yale Unity Installation Template*** is tradesman friendly, particularly where multiple or ongoing installations are required.

***Yale Connect Bridge, Yale Smart Keypad, Yale Unity Nexion Retrofit Kit and Yale Unity Installation Template sold separately.**

NOTE: Yale Unity Nexion Retrofit Kit not suitable for use on fire door applications.
